

A group of approximately 20 children, mostly of elementary school age, are posed in two rows on a grassy area. The back row consists of about 12 children standing or kneeling, wearing blue t-shirts. The front row consists of about 10 children sitting on the grass, wearing orange t-shirts. Many of the children are holding white soccer balls with red triangular patterns. In the background, there is a paved road, a chain-link fence, and a multi-story brick building under a clear blue sky. A yellow speed limit sign is visible on the right side of the road.

# Cold Spring School

## **EXPLORE SUMMER!**

### **Five Weeks of Fun & Adventure**

Available for Cold Spring Students Entering K - Current 6th

8:30AM - 4:00PM

\$300 per child, per week

# LEARN & HAVE FUN!

Five weeks of fun and adventure! Children will participate in two activities each day for the week(s) that they sign up. There will also be plenty of time each day for outdoor free play with mud, water, and more! Weekly program groupings are listed below. Children will be split into age appropriate groups.

Questions? For more information about the summer program please e-mail Annie at: (aladd-smith@coldspringschool.org).

## WEEK 1

**June 26-30**

**Katie, Adele, Jada S. and Annie**

### ROCK CLIMBING:

**For 2-6th Graders:** Katie will focus on different activities that will build strength and endurance, but will also teach life skills such as mental focus, problem solving, achieving goals, and pushing kids out of their comfort zone. Katie will do various top rope and bouldering activities on the climbing wall while teaching kids proper technique with an emphasis on how to climb safely. We will discuss what climbers sometimes refer to as “terms only climbers say”. Heel hooks? Barn doors? Beta? Don’t know what any of these terms mean? Katie’s got you covered. Ultimately, climbing is an amazing sport that kids could be involved with for a lifetime!

**For K-1 Graders:** Katie will do a variation of climbing that will introduce the younger ones to the sport. While we will not use the actual climbing wall in the Community Building (that is for the 2nd-6th graders) we will use the blue play structure to get the kids started on all things climbing! We will work on certain techniques of the sport like finger strength, footwork, and body positioning while creating fun and interactive relay games that will introduce the kids to what climbing is all about!

**BIRD WATCHING:** Have you spotted a Starling in Criscuolo Park? Ever wondered about the world of crows on your way to school? This week, let’s get to know the birds of Cold Spring! Bring your powers of observation, your creativity, and your willingness to be silly as we learn about the birds around our school. You will create your own field guides for the area, play games that simulate migration, model different beak adaptations, and more!

## WEEK 2

July 3-7

Jazlyn, Athena, Jada S.

**PUPPET THEATER WORKSHOP:** Together we'll explore the world of puppet theater. Learn the process for creating our own puppet theater. We'll use our imagination and creativity to make our own puppets and produce our own puppet theater performances.

**COOKING:** During this week, we will learn recipes from around the world and cook dishes important to different cultures.

## WEEK 3

July 10-14

Karen, Jazlyn, Athena

**MAKE A MOVIE!** Come and produce a movie this week. Children will brainstorm ideas, write a script, act out various parts, add special effects, edit raw footage, add background music and sound effects, apply transitions and titles, and add any final details. There will be a film festival on the last day!

**BOOKMAKING:** Students will create and publish a picture book!

## WEEK 4

July 17-21

Nate, Athena, Jazlyn

**SUPER STRIKERS SOCCER CAMP:** Join Coach Nate this summer for a soccer camp experience like no other! The Super Strikers camp will feature cooperative activities, individual and group goal setting and lots of small sided games designed to foster a love for the world's most popular sport. Some of the activities that students can look forward to include, MLS PK shootout, World Cup Scrimmages, Soccer Bowling, Goalkeeping, etc, etc. Coach Nate has directed soccer camps across the globe over the past 16 years and is excited to be back at CSS summer camp this year.

**STEM LAB:** Join us for a week of hands-on, engaging, and fun STEM projects and activities. Have a blast with mad science, engineering, circuitry, and more!

## WEEK 5

July 24-28

Nate, Jazlyn, Jada S.

**CSSC:** Cold Spring Soccer Club will offer a new twist on the traditional soccer camp experience that will include learning about what it takes to build/run a soccer club. Students will have fun exploring and creating soccer related items that can be found at stadiums around the world including, soccer cleats, trophies and medals, magazines, etc. Students will also get to design a personalized soccer jersey for them to take home at the end of the week. Soccer games and activities will emphasize teamwork skills, collaboration and leadership.

**EMOTIONAL ARTS:** Students will express different emotions by throwing paint on canvas with different tools. We will create a different canvas for different emotions and display them in the Community Building all week.

---

**REGISTER ONLINE!** We are able to accept a limited number of children per week and spots are held on a first-come, first serve basis. You will receive an email confirmation once you are registered.
